

## IMPORTANT TRAVEL & ACCESS INFORMATION SUNDAY 22 MAY 2022

### ELYSIUM HEALTHCARE GREAT WEST RUN

The Elysium Healthcare Great West Run will be taking place again this year on **Sunday 22 May 2022**. The half marathon is returning for the first time since 2019 and promises to once again be an exciting, inclusive and engaging event for the whole town. We expect there to be around 3000 entrants many of whom are raising money for a number of local and national charities.

The event is once again using some of the town's roads for the race which has resulted in a few changes to the usual traffic routes in the town. The route is unchanged from 2019 and once again every effort has been made to minimise the disruption caused with the closing of roads. Where closures occur, and where possible, diversions will be in place to ensure continued access around the area for motorists and public transport.

All closures go in from **:00am** and will dynamically reopen, as soon as it is safe to do so behind the last runners, with all roads reopened by **:00pm**. A map of the half marathon route can be found overleaf. Please refer to the information on the map and contact us with any unanswered queries. The map includes estimated times for the reopening of each section of route.
